

SenseHub® Dairy

Sorting Gate

Experience the power of automation

The SenseHub® Dairy Sorting Gates are automatically connected to the SenseHub® Dairy system to provide you access to automated sorting of animals using the SenseHub® Dairy application.

Cows can be automatically sorted based on heat and health alerts. You also have the flexibility to create your own list of cows to sort using the Report Generator.

Farm with **more freedom**

Fully connected to the SenseHub® Dairy ecosystem

Freedom is the power of automation to help improve operations and workflow.

SenseHub® Dairy Automation Control at your fingertips

You can have peace of mind knowing the SenseHub® Dairy Sorting Gates come with automated sorting that contributes to improved safety, increased cow welfare and reduced animal stress, enabling a calm and secure environment for your cows and your team.

SenseHub® Dairy Sorting Gates can help you:

- Deliver precise readings across diverse environments using advanced infrared technology.
- Improve work efficiency by simplifying routine tasks to save time.
- Reduce labour costs with automated actions.
- Improve animal welfare with stress-free sorting and reduced lock-up time which can contribute to increased milk yields.
- Regulate access to pens or pasture by facilitating animal traffic.

Fully compatible with SenseHub® Dairy Monitoring neck tags or EID ear tags.

Farm with **more freedom**
through a deeper connection
to your animals
