

The Science of Relevant

PRESTIGE® vaccines containing the equine influenza fraction: Delivering protection against relevant flu strains

- Contain the **most current influenza** strain commercially available in Canada.¹
- Meet the guidelines of the World Organisation for Animal Health (OIE) for equine influenza vaccine composition.²
- Feature a proprietary antigen purification system that is designed to minimize vaccine-associated adverse events.

Talk to your veterinarian about PRESTIGE® vaccines.

PRESTIGE®

The Next Generation of FLU Protection

PRESTIGE® 2

PRESTIGE® 4

PRESTIGE® 5

PRESTIGE® 5+WNV

These products have been shown to be effective for the vaccination of healthy horses 6 months of age or older.
Vaccination may not fully protect every horse vaccinated. Always read and follow the label instructions to ensure PRESTIGE® equine vaccines are suitable.
